

# Important Provider Notification

## 2016-2017 Flu and Pneumonia Vaccines

**Flu season vaccination has arrived. Flu vaccines are annual covered benefits for all Clear Health Alliance Medicaid members. The pneumonia vaccine requires prior authorization and is provided up to twice per lifetime.**

**Influenza and pneumonia vaccinations are also covered through our network pharmacies.** Members should check with their pharmacist concerning the availability and administration of both vaccines.

Clear Health Alliance reimburses participating providers for influenza and pneumococcal vaccinations as follows:

- Birth – 18 year old members - participating providers receive vaccines free for Medicaid members from birth through 18 years of age by joining the Federal Vaccines for Children Program (VFC). Clear Health Alliance will reimburse providers a \$10 administration fee for the vaccine when billing with the administration codes G0008 for the flu vaccine and G0009 for the pneumococcal vaccine.
- 19- 20 year old members – Participating providers will be reimbursed for the cost of the vaccine and the administration fee of \$10.00 by billing with the administration code G0008 (flu vaccine) or G0009 (pneumococcal vaccine), modifier HA and the applicable procedure code below:

CPT Codes	Modifier 19-20 only	Flu and Pneumonia Vaccines for 19-20 Year Olds	Payment Limit (19-20)
90656	HA	Influenza virus vaccine, intramuscular, preservative free	\$17.72
90686	HA	Influenza virus vaccine, intramuscular, preservative free	\$19.03
90732	HA	Pneumococcal polysaccharide vaccine, 23-valent, subcutaneous or intramuscular	\$89.95

- 21years and older – Participating providers will be reimbursed for the cost of the vaccine and the administration fee of \$10.00 by billing with the administration code G0008 (flu vaccine) or G0009 (pneumococcal vaccine), and the applicable procedure code below:

CPT Codes	Flu and Pneumonia Vaccines for 21 Year Olds and Older	Payment Limit (21+)
90656	Influenza virus vaccine, intramuscular, preservative free	\$17.72
90686	Influenza virus vaccine, intramuscular, no preservative free	\$19.03
90732	Pneumococcal polysaccharide vaccine, 23-valent, subcutaneous or intramuscular adult or immunosuppressed patient dosage	\$89.45
90670	Pneumococcal conjugate vaccine, 13 valent, for intramuscular use	\$181.06

In the next few weeks, members will be advised to go to any participating pharmacy or PCP to get the flu shot. For the pneumococcal vaccine, members will be advised to consult with their PCPs. Our member education efforts will continue throughout the season.

Thank you in advance for promoting the importance of flu prevention in your practice as well as to our members during their visit. Together we can help minimize the flu's impact on patients, their families and the community this flu season.
