

Important Provider Notification

2013-2014 Flu and Pneumonia Vaccines

Flu season has arrived. The flu and pneumonia vaccines are annual covered benefits for all Clear Health Alliance Medicaid Members:

Clear Health Alliance Medicaid Members

No prescription required

Influenza and pneumonia vaccinations are covered through our network pharmacies. Members should check with their pharmacist concerning the availability and administration of the flu vaccine.

Participating providers can send our members to any network pharmacy to get their free shots. Our member education efforts will continue throughout the season.

HCPCS Code	Short Description	Payment Limit
90654	Influenza virus vaccine, intradermal, no preserv. Adults ages 18-64	25.00
90656	Influenza virus vaccine, intramuscular, no preserv 3 yo & >, im	25.00
90662	Influenza virus vaccine, intramuscular, preserv free, inc antig	25.00
90732	Pneumococcal vaccine, 23 valent	35.00

In the next few weeks members will receive information about flu prevention. Members will be advised to go to any participating pharmacy or their PCP and get a flu shot. For the pneumococcal vaccine, members will be advised to consult with their PCPs. Our member education efforts will continue throughout the season.

Thank you in advance for promoting the importance of flu prevention in your practice, as well as to our members during their visit. Together we can help minimize the flu's impact on patients, their families and the community this flu season.
